

Ronald Mojica

SENIOR WEB APPLICATION
DEVELOPER

I'm a professional Software Engineer with over six years of experience in web and mobile development. I specialize in business management systems encompassing Accounting, Credit Requests, Analysis, and Inventory. I am experienced in designing and consuming APIs, facilitating the interconnection of diverse applications, and providing reporting solutions. My preferred development stack includes PHP with Laravel, JavaScript, HTML, CSS, Bootstrap, Ajax, and JQuery. I also possess significant experience administering and developing WordPress websites and platforms. I am proficient at mobile programming using the IONIC Framework and Android Studio (JAVA-KOTLIN). Additionally, I am familiar with relational database servers, including SQL Server and MySQL. I have working experience with NoSQL databases such as MongoDB and Firebase.
